Subject: Jodi Bates bio for TPO 2025 Conference

Jodi brings over three decades of experience at Cabot, specializing in technical service, application development, and R&D. Her extensive expertise spans a broad spectrum of Cabot's particle portfolios, including specialty carbons, fumed metal oxides, aerogels, and inkjet colorants. Currently, she focuses on the use of Specialty Carbons and Fumed Metal Oxides in plastics. Jodi serves as the manager of the technical service function for the Performance Additive Business in the Americas region.
