**Subject: Plastics Success!**

Dear all,

This week concluded our presentations by Margie Weiner from the Society of Plastics Engineers sponsored by Davis-Standard. The students all really enjoyed the activities and learned a lot about both the plastics industry, potential future career paths, and also about what Davis Standard does right next door. The looks of amazement on their faces during some of the demonstrations and also the hands on activities was great!

A big thank you to everyone who made this possible including Margie Weiner who did a fantastic job engaging our students and providing this unique experience. Kaitlin for letting us take over her classroom for 2 days and helping to coordinate all the events. Rosa for setting this up last year and continuing the relationship for the future. Anney and Mark for allowing us to incorporate this into our curriculum at a very busy time of the year. Davis Standard for sponsoring the program and being a part of the future education of our students.

Everything went very well and as soon as I upload my pictures from my phone I will share them with you all :)

Thanks again and have a great day!

Olwen
